### FOR IMMEDIATE RELEASE

## ALL4, LLC Expands into Global Market with Acquisition of Spain-based Digital Consulting Firm, Laragon Sustainability Solutions

**Madrid, Spain** - All4 LLC (ALL4), a leader in environmental, health, safety, sustainability, and digital consulting services, is excited to announce the acquisition of Laragon, a management consulting firm specializing in digital transformation of Environmental and Sustainability Management, Health and Safety, and Risk Management Compliance based in Madrid, Spain. This acquisition enhances ALL4's digital solutions practice and extends the overall impact of the company from being North American based to being a global resource aligning to current and future client needs.

Chad Morris, Chief Growth Officer at ALL4, says "The Laragon acquisition brings together two geographic leaders covering North America, Europe, and Latin America to become a world class global provider of digital services and EHS consulting. This will better serve our clients and vendor partners while providing increased growth opportunities for our employees."

Laragon was established in 2006 and is a recognized European and Latin American leader in digital solutions. Their services cover the complete software deployment life cycle, from requirement analysis and assessment of technologies, through the implementation and deployment of multiple vendor systems. They offer expert systems integration and data analytics services and an integrated and flexible support model. Laragon partners with technology leaders in Quality, Environmental, Health and Safety (QEHS), Operational Risk Management (ORM), Environmental, Social, and Governance (ESG), IoT and AI to design, implement and deploy solutions across all industries supported by Laragon's Innovation Lab.

ALL4's complementary Digital Solutions Practice (DSP) specializes in solving challenges associated with harmonizing business practices across large multinational organizations, implementing and sustaining enterprise-wide air quality emissions and EHS compliance tracking, and effectively bringing different data streams together to support key performance indicator (KPI) tracking including business, QEHS, sustainability, and other [environmental, social, and governance](#) (ESG)-related goals.

William Straub, ALL4's CEO emphasized the strategic, and thoughtful nature of their acquisitions excellence and thought leadership while aligning with our best-in-class culture to attract, grow, and retain talented consultants. The addition of Laragon expands our team and positions ALL4 as a global partner for our clients."

This marks ALL4's fifth acquisition and represents a milestone in ALL4's vision of providing a comprehensive menu of strategic solutions to the global regulated community. The addition of

Laragon brings ALL4 to over 300 professionals serving a wide range of industries furthering our purpose of growing a sustainable community.

### **About ALL4**

ALL4 provides consulting services that span challenges encountered within industrial EHS programs. Our strategic services include air quality, chemical reporting and management, digital solutions, environmental, social, and governance, investigation and remediation, occupational health and safety, waste management, and water quality. ALL4 has offices and remote staff members in 26 U.S. states as well as in Calgary and Toronto, Canada. The company has office locations in the metro areas of Philadelphia, PA (headquarters); Rancho Cucamonga, CA; Atlanta, GA; Louisville/Lexington, KY; Raleigh, NC; Houston, TX; Bellingham, WA, and Washington, DC. ALL4 provides strategic consulting services to numerous heavily regulated industries across the country, including pulp and paper, food and beverage, consumer products, cement, chemical/pharmaceutical, waste management, power, oil and gas, and automotive. ALL4 has been consistently recognized as a “Best Place to Work” both regionally and nationally – growing in personnel, culture, and environmental disciplines.
